

The Ganaraska Region Conservation Authority (GRCA) was formed in October 1946 and is one of the oldest conservation authorities in Ontario. With over 65 years of conservation experience, the Ganaraska Region Conservation Authority is leading the way in watershed innovation, adaptation and resilience. In addition, staff provide education to all ages on the importance of protecting our surrounding land and waters.

We hope that you enjoy the approximate 1.6 km trail through the Ganaraska Millennium Conservation Area. To learn more about the GRCA and our other conservation areas please visit www.grca.on.ca.

Please Remember...

-  Leave only footprints, take only pictures and memories
-  Stay on the trails
-  Keep any pets on a leash
-  Watch out for Poison Ivy
-  Enjoy your time at the Ganaraska Millennium Conservation Area
