Property Address (if different from mailing address):			
Lot:	Concession:		Municipality:
Estimated area or length to contain planting:  Area: _____ Acres; or _____ Hectares  Length: _____ metre; or _____ feet	Soil Conditions: <input type="checkbox"/> Dry <input type="checkbox"/> Wet <input type="checkbox"/> Clay <input type="checkbox"/> Sand <input type="checkbox"/> Loam <input type="checkbox"/> Other _____		Current Land Use/Cover: <input type="checkbox"/> Crop field <input type="checkbox"/> Pasture field <input type="checkbox"/> Lawn <input type="checkbox"/> Meadow <input type="checkbox"/> Woodlot/Forest <input type="checkbox"/> Riparian (next to water) <input type="checkbox"/> Other _____

- The typical tree spacing when planting is 8 feet between evergreens and 10 feet between hardwoods.
- Coco disc (mulch mats) will be provided with the trees.
- A maximum order of 500 trees is allowed.

Tree and Site Description	# Requested	Tree and Site Description	# Requested
<b>White Pine 8-12" tall 4 year old</b> Best on well drained to moist sand and loams.	___ bundle(s) of 10	<b>Red Maple 12-18" tall 2 year old</b> Can tolerate wet and dry soils but best on moist sites.	___ bundle(s) of 25
<b>Red Pine 8-14" tall 3 year old</b> Good on infertile, well-drained, sandy, gravelly soils. Needs full sunlight.	___ bundle(s) of 10	<b>Silver Maple 12-18" tall 2 year old</b> Best on deep, fertile, moist loams (withstands seasonally wet soils). Needs full sunlight.	___ bundle(s) of 25
<b>White Spruce 12"+ tall 4 year old</b> Best on well-drained, moist silty soils. Tolerates poorly drained and heavy soils. Avoid dry sites. Tolerates shading. Slow initial growth.	___ bundle(s) of 10	<b>Red Oak 12-18" tall 2 year old</b> Best on deep, well-drained sandy loam. Tolerates drier conditions. Avoid heavy, wet soils.	___ bundle(s) of 25
<b>Tamarack 8-16" tall 3 year old</b> Grows best on moist, sandy soils. Tolerates wet, poorly drained sites. Needs full sunlight.	___ bundle(s) of 10	<b>White Oak 12-18" tall 2 year old</b> Best on deep, well-drained loams. Avoid dry or poorly drained conditions.	___ bundle(s) of 25
<b>Sugar Maple 12-18" tall 2 year old</b> Best on deep, fertile, well-drained to moist loams. Tolerates shade when young.	___ bundle(s) of 25	<b>Total Number of Trees:</b>	___ bundle(s) of 10 ___ bundle(s) of 25

**Please provide detailed diagram of where the trees will be planted, digital maps are welcome:**

**CONDITIONS**

Eligibility for involvement in the Emerald Ash Borer Replacement Tree Program may be limited by overhead or underground utilities, site lines, drainage, or suitability of the planting site. Spacing and location will depend upon suitability of site for species requested, such as soil and drainage, location of existing trees on the property, etc.

It is understood that the survival of individual trees cannot be, and is not guaranteed.

The applicant agrees to pick-up the trees from the Gananaska Region Conservation Authority, and further agrees to plant the trees on his or her property and not in the municipal or county road right-of-way. It is the responsibility of the landowner to ensure that trees being planted do not, in any way, interfere with above and below ground utilities (recommended 8 metres from utilities).

Every effort will be made to inform the landowner of how they can increase the chances of survival and tree growth. Planting instructions will be provided at the time of tree pick-up.

Northumberland County and the Gananaska Region Conservation Authority does not take any responsibility in the long-term care and maintenance of the trees planted under this program.

I consent to receiving email from the Gananaska Region Conservation Authority
